Colorado Expanding Laws That Will Negatively Affect Lawful Firearm Ownership in Colorado

Please show up in committee. Colorado needs you.

The State Assembly in Colorado is further expanding laws that will negatively affect lawful firearm ownership in Colorado.

HB 1230 is intended to stop all legal commerce in relation to Modern Sporting Rifles (MSRs) in Colorado. The sponsors of the bill claim it is targeted to firearms used in mass shootings. It isn't.

Most firearms involved in "mass shootings" are semiautomatic handguns - over 90 percent. As drafted, the bill does not include common handguns. It targets common semiautomatic long guns (MSRs) and large frame semiautomatic pistols commonly built on rifle length actions.

Of special concern to all current owners, you may not sell or transfer a firearm in possession, and a one-word amendment in committee will prohibit existing ownership.

While we believe this bill is clearly unconstitutional based on the recent *Bruen* decision from the Supreme Court, the legislature appears poised to pass such legislation regardless of the unconstitutionality.

Please show up in committee. Colorado needs you.

Sign up and show up **Wednesday, March 29** at 1 p.m. in the Old

If you cannot attend in person, please call me at 303-440-1234.
Judiciary Committee and ask them to add you to the list.
won't.

**POSTPONED, but watch for a new date and time!
It has NOT been permanently killed in committee,
so it can still come back to bite us this session!**

It has been an incredibly eventful year so far for SAF in courtrooms across the country and we just won two important federal court cases in Minnesota and California last week alone!

We are pushing our boldest gun rights legal agenda to date. We are even more committed to Winning Firearms Freedom One Lawsuit at a Time. Right now, our opposition is raising money in a desperate attempt to undo our progress and the gun prohibition lobby is spending millions to push their anti-rights agenda forward

The Colorado Freedom Force

Still After The 2nd

Our newsletters have placed a lot of emphasis on the package of anti-Second Amendment bills this session, and will continue to do so as long as they loom in the Legislature.

They are:

- SB23-168 - Allowing gun manufacturers and stores to be sued. **PASSED**
- SB23-169 - Increasing minimum age to purchase a firearm to 21. **PASSED, to Polis**
- SB23-170 -Expansion of the "Red Flag" law. **PASSED, to Polis**
- HB23-1219 - Three day waiting period to purchase a firearm. **PASSED**

All four of these bills passed their original chamber, and have been referred to the House or Senate for additional committee hearings there.

Together, we must continue to make our voices heard in Denver!

Please call, email or text your representatives to let them no you oppose these four anti-Second Amendment bills, as well as the "Assault Weapons Ban" HB23-1230.

Please also take a moment to donate today to [The Colorado Freedom Force](http://TheColoradoFreedomForce.com) to keep up the pressure on your Colorado legislators.

This is how gun control works

Hillbilly Wisdom - Part 2

Source:
Caucus Room

Most of the stuff people worry about ain't never gonna happen anyway.

Don't judge folks by their relatives.

Silence is sometimes the best answer.

Don't interfere with somethin' that ain't botherin' you none.

Timing has a lot to do with the outcome of a rain dance.

If you find yourself in a hole, the first thing to do is stop diggin'.

Sometimes you get, and sometimes you get got.

The biggest troublemaker you'll ever have to deal with watches you from the mirror every mornin'.

Always drink upstream from the herd.

Good judgment comes from experience, and most of that comes from bad judgment.

Lettin' the cat outta the bag is a whole lot easier than puttin' it back in.

If you get to thinkin' you're a person of some influence, try orderin' somebody else's dog around.

Live a good, honorable life. Then when you get older and think back, you'll enjoy it a second time.

Live simply. Love generously. Care deeply. Speak kindly. Leave the rest to God.

Most times, it just gets down to common sense.

Fair Use Act Disclaimer

This site is for educational purposes only!!

****FAIR USE****

Copyright Disclaimer under section 107 of the Copyright Act 1976, allowance is made for "fair use" for purposes such as criticism, comment, news reporting, teaching, scholarship, education and research.

Fair use is a use permitted by copyright statute that might otherwise be infringing.

Non-profit, educational or personal use tips the balance in favor of fair use.

FAIR USE DEFINITION:

(Source: http://en.wikipedia.org/wiki/Fair_use)

Fair use is a doctrine in the United States copyright law that allows limited use of copyrighted material without requiring permission from the rights holders, such as for commentary, criticism, news reporting, research, teaching or scholarship. It provides for the legal, non-licensed citation or incorporation of copyrighted material in another author's work under a four-factor balancing test. The term "fair use" originated in the United States. A similar principle, fair dealing, exists in some other common law jurisdictions. Civil law jurisdictions have other limitations and exceptions to copyright.

U.S. COPYRIGHT OFFICE - FAIR USE DEFINITION:

(Source: <http://www.copyright.gov/fls/fl102.html>)

One of the rights accorded to the owner of copyright is the right to reproduce or to authorize others to reproduce the work in copies or phonorecords. This right is subject to certain limitations found in sections 107 through 118 of the copyright law (title 17, U.S. Code). One of the more important limitations is the doctrine of "fair use". The doctrine of fair use has developed through a substantial number of court decisions over the years and has been codified in section 107 of the copyright law.

Section 107 contains a list of the various purposes for which the reproduction of a particular work may be considered fair, such as criticism, comment, news reporting, teaching, scholarship, and research. Section 107 also sets out in four factors to be considered in determining whether or not a particular use is fair:

1. The purpose and character of the use, including whether such use is of commercial nature or is for nonprofit educational purposes
2. The nature of the copyrighted work
3. The amount and substantiality of the portion used in relation to the copyrighted work as a whole
4. The effect of the use upon the potential market for, or value of, the copyrighted work

The distinction between fair use and infringement may be unclear and not easily defined. There is no specific number of words, lines, or notes that may safely be taken without permission. Acknowledging the source of the copyrighted material does not substitute for obtaining permission.

The 1961 Report of the Register of Copyrights on the General Revision of the U.S. Copyright Law cites examples of activities that courts have regarded as fair use: "quotation of excerpts in a review or criticism for purposes of illustration or comment; quotation of short passages in a scholarly or technical work, for illustration or clarification of the author's observations; use in a parody of some of the content of the work parodied; summary of an address or article, with brief quotations, in a news report; reproduction by a library of a portion of a work to replace part of a damaged copy; reproduction by a teacher or student of a small part of a work to illustrate a lesson; reproduction of a work in legislative or judicial proceedings or reports; incidental and fortuitous reproduction, in a newsreel or broadcast, of a work located in the scene of an event being reported."

Copyright protects the particular way an author has expressed himself. It does not extend to any ideas, systems, or factual information conveyed in the work. The safest course is always to get permission from the copyright owner before using copyrighted material.
