CHARLES KETTERING

The July 2023 NSSF-adjusted National Instant Criminal Background Check System (NICS) figure of 1,023,903 is a decrease of 17.0 percent compared to the July 2022 figure of 1,233,115. For comparison, the unadjusted July 2023 FBI NICS figure 1,987,650 reflects a 15.7 percent decrease from 2,358,150 in July 2022. July 2023 marks the 48th month in a row, four years, that has exceeded 1 million adjusted background checks in a single month

## US Supreme Court Hands Down 5-4 Gun Ruling | Facts Matter

### **The Firearms Coalition of Colorado 08-08-2023 Legislative Alert- Federal Judge blocks Minimum Age Bill**

On 08-07-2023, a federal district judge ordered a preliminary injunction to delay enforcement of Colorado Senate Bill 23-169, which prohibited the purchase of any firearm by a Colorado resident under the age of 21. The judge cited the Bruen Supreme Court ruling in the order, stating that there is a high probability that the two plaintiffs in the case will be successful.

The text of the legislation is located here:

[Increasing Minimum Age To Purchase Firearms | Colorado General Assembly.](#)

Please support or increase your support for pro-Second Amendment organizations, especially those that engage in lawsuits against the unconstitutional overreach of the Liberal/Progressives in government, who are eagerly abetted by their cronies in the Mainstream Media and the Educational Establishment.

Elections are the most important factors in determining if we are to keep our birthright of freedom recognized by the Second Amendment. Elections determine who runs the legislative process at the state and federal levels, who appoints judges, and who controls the boards, councils and commissions for local districts, cities and counties. Please do as much as you can to assist in the effort to elect pro-Second Amendment candidates in every election. Remember that a Third-Party Vote is a wasted vote and that people who cast protest votes are called losers.

## With Foreign Nationals Empowered to Disarm Americans, Who Needs Blue Helmets?

The Colorado State Shooting Association announced it is suing Colorado Governor Jared Polis for violating the Second Amendment by signing into law Senate Bill 23-169 and House Bill 23-1219.

SB 23-169 is a blanket prohibition of 18–20-year-olds from purchasing a firearm. House Bill 23-1219 makes it illegal for Coloradans to purchase a firearm and receive it before three days have passed.

Patriotic Americans, such as our 19-year-old member and plaintiff, are barred from exercising their Second Amendment rights. Our plaintiff's neighbors were attacked in a drive-by shooting. Under SB23-169, he is unable to purchase a firearm and defend himself because of his age.

Law-abiding citizens will be restricted to a three-day waiting period when purchasing a firearm starting October 1st. CSSA represents seven identified members who are known survivors of domestic violence but need to remain anonymous for their protection at this time. A domestic violence survivor has a constitutional right to defend him or herself immediately.

The Colorado State Shooting Association (NRA's state association) will always fight to defend the Second Amendment. Gun-owning Coloradans, it is time to fight back with us.

We are taking this fight to the courts. American Patriots will not take this violation of our rights lying down. Join us in our battle against Governor Polis.

Click on the buttons below to donate to our defense fund and become a member for \$5 per month, \$50 per year, or \$140 for three years.

## Fair Use Act Disclaimer

This site is for educational purposes only!!

**\*\*FAIR USE\*\***

Copyright Disclaimer under section 107 of the Copyright Act 1976, allowance is made for "fair use" for purposes such as criticism, comment, news reporting, teaching, scholarship, education and research.

Fair use is a use permitted by copyright statute that might otherwise be infringing.

Non-profit, educational or personal use tips the balance in favor of fair use.

### FAIR USE DEFINITION:

(Source: [http://en.wikipedia.org/wiki/Fair\\_use](http://en.wikipedia.org/wiki/Fair_use))

Fair use is a doctrine in the United States copyright law that allows limited use of copyrighted material without requiring permission from the rights holders, such as for commentary, criticism, news reporting, research, teaching or scholarship. It provides for the legal, non-licensed citation or incorporation of copyrighted material in another author's work under a four-factor balancing test. The term "fair use" originated in the United States. A similar principle, fair dealing, exists in some other common law jurisdictions. Civil law jurisdictions have other limitations and exceptions to copyright.

### U.S. COPYRIGHT OFFICE - FAIR USE DEFINITION:

(Source: <http://www.copyright.gov/fls/fl102.html>)

One of the rights accorded to the owner of copyright is the right to reproduce or to authorize others to reproduce the work in copies or phonorecords. This right is subject to certain limitations found in sections 107 through 118 of the copyright law (title 17, U.S. Code). One of the more important limitations is the doctrine of "fair use". The doctrine of fair use has developed through a substantial number of court decisions over the years and has been codified in section 107 of the copyright law.

Section 107 contains a list of the various purposes for which the reproduction of a particular work may be considered fair, such as criticism, comment, news reporting, teaching, scholarship, and research. Section 107 also sets out in four factors to be considered in determining whether or not a particular use is fair:

1. The purpose and character of the use, including whether such use is of commercial nature or is for nonprofit educational purposes
2. The nature of the copyrighted work
3. The amount and substantiality of the portion used in relation to the copyrighted work as a whole
4. The effect of the use upon the potential market for, or value of, the copyrighted work

The distinction between fair use and infringement may be unclear and not easily defined. There is no specific number of words, lines, or notes that may safely be taken without permission. Acknowledging the source of the copyrighted material does not substitute for obtaining permission.

The 1961 Report of the Register of Copyrights on the General Revision of the U.S. Copyright Law cites examples of activities that courts have regarded as fair use: "quotation of excerpts in a review or criticism for purposes of illustration or comment; quotation of short passages in a scholarly or technical work, for illustration or clarification of the author's observations; use in a parody of some of the content of the work parodied; summary of an address or article, with brief quotations, in a news report; reproduction by a library of a portion of a work to replace part of a damaged copy; reproduction by a teacher or student of a small part of a work to illustrate a lesson; reproduction of a work in legislative or judicial proceedings or reports; incidental and fortuitous reproduction, in a newsreel or broadcast, of a work located in the scene of an event being reported."

Copyright protects the particular way an author has expressed himself. It does not extend to any ideas, systems, or factual information conveyed in the work. The safest course is always to get permission from the copyright owner before using copyrighted material.
