## The Firearms Coalition of Colorado

07-26-2024 Legislative Alert-The Liberal/Progressive who would be President

The presumptive Democrat candidate for the US Presidency has numerous ties to radical organizations and individuals who are committed to the destruction of the United States Government. Her political record appears to demonstrate that she is an opportunistic Socialist/Communist who will do whatever is necessary to attain and maintain power.

Her attacks on the natural right of American Citizens to armed self-defense against crime, terrorism, tyranny, and genocide fit in with the Left-Wing Agenda to turn the United States into a one-party Socialist "Utopia," where the government will control where you live, what you do, what you eat, where you travel, how (or if) you travel, and what you think. She has stated that she does not believe in an individual right to own a firearm. She has also advocated for a total ban on semi-auto firearms.

In a larger sense, we may be correct to consider her to be a creature of the Radical Liberal/Progressive Movement, who will move in lockstep with the billionaires who fund it, the party hacks who perpetrate it, and the street thugs and deep state operatives who enable it through violence and selective enforcement. The following links provide a frightening look at the radical who would be President of the United States.

The futures of the Second Amendment and our Republic depend on the November Election. Please provide all possible support to pro-Second Amendment candidates from the most pro-individual gun rights major political party. This means contributions of time and money to candidates at all levels. If you do not actively campaign for your legal rights, you will lose them.

There will be no "do-overs" after the election this year. This past legislative session was a taste of what is in store, if the status quo remains unchanged in Colorado.

Please get personally involved in the election process. Mike Rosen was right. "Party trumps person." A protest vote is a wasted vote. People who support third party candidates who cannot win are called "losers."

## **DuPont used to make dynamite**

In 1802, Éleuthère Irénée du Pont founded E.I. du Pont de Nemours & Co. (AKA DuPont) in Wilmington, Delaware, to manufacture gunpowder, which the French immigrant wisely assumed would be a good American business. During the War of 1812, DuPont sold 1m+ pounds of gunpowder and made \$148.5k+, or ~\$2.7m today.

The company continued to produce things that went boom, including blasting powder and dynamite, until 1912, when the federal government found it ran a near monopoly on explosives and forced it to divest.

Throughout the early 20th century, DuPont diversified across numerous chemical industries, which is why you likely associate DuPont today with less explosive household items like nonstick pans and paint.

***DON'T Try This at Home!***

Fun fact: In 1910, DuPont published Farming with Dynamite, which suggested using explosives to clear stumps, break up land, and dig ditches.
