**Projected Colorado Legislative Lineup for 2024 Session**

The attached list represents our best estimate of the composition of the Colorado House and Senate for the 2024 Legislative Session. The individuals whose names are marked with an \* are newer appointees, who may be subject to primary challenges. If you are not sure of your state senate or state house district, contact your county clerk to get that information.

Contact your state senator and representative about your support of, or opposition to, bills impacting your Second Amendment rights. Be courteous and concise in your comments to all elected officials. Where appropriate, state facts and the personal impact of legislation on you and your family. It is important to let elected officials know your opinion, even if they oppose your views. Liberals need to know there is significant, principled opposition to their intended course of action, or they will assume that no one cares and will pursue even more outrageous proposals.

While contacting government officials is important, elections are the most important factors in determining if we are to keep our birthright of freedom recognized by the Second Amendment. Elections determine who runs the legislative process at the state and federal levels, and who controls the boards, councils and commissions for local districts, cities and counties. Please do as much as you can to assist in the effort to elect pro-Second Amendment candidates in every election. Remember that a Third-Party Vote is a wasted vote and that people who cast protest votes are called losers.

## Conundrum!

"A gun is like a parachute; If you need one and don't have one, you'll probably never need one again."

The definition of the word Conundrum is: "something that is puzzling or confusing."

### **Here are six Conundrums of Socialism in the United States of America:**

1. America is Capitalist and greedy - yet half of the population is subsidized.
2. Half of the population is subsidized - yet they think they are victims.
3. They think they are victims - yet their representatives run the government.
4. Their representatives run the government - yet the poor keep getting poorer.
5. The poor keep getting poorer - yet they have things that people in other countries only dream about.
6. They have things that people in other countries only dream about - yet they want America to be more like those other countries.

### **These three, short sentences tell you a lot about the direction of our current government and cultural environment:**

1. We are advised to NOT judge ALL Muslims by the actions of a few lunatics, but we are encouraged to judge ALL gun owners by the actions of a few lunatics.

Funny how that works. And here's another one worth considering...

2. Seems we constantly hear about how Social Security is going to run out of money. But we never hear about welfare or food stamps running out of money! What's interesting is the first group "worked for" their money, but the second didn't.

Think about it....and last but not least :

3. Why are we cutting benefits for our veterans, no pay raises for our military and cutting our army to a level lower than before WWII, but we are not stopping the payments or benefits to illegal aliens.

***"If you do not take an interest in the affairs of your government, then you are doomed to live under the rule of fools." – Plato***
